Point of clarification regarding the following text on the bid form:

*Concrete per yard delivered	2,000 yards (total estimated volume of both mixes)		
	4,000 mix per cu yd	_____	_____
	3,000 mix per cu yd	_____	_____

The “2,000 yard (total estimated volume of both mixes)” figure is stated as the amount the City does not expect to exceed. This does not indicate an average quantity purchased in a given year. Generally the average purchased is substantially less than 2,000 yards.
